

*Dear Parents,*

*My wife and I sent our children to Holy Trinity Elementary (now Corpus Christi Catholic School) because of the high-quality education they receive in a Catholic-based environment. Your children will receive a top-notch education provided by a dedicated teaching staff whose purpose is to help your child succeed. What better educational and spiritual tool is there then placing your child into an environment that is living God's word? Your child will learn the meaning of God's word and the teaching of the church through religious education. They will witness God's love and teachings through the interactions of teachers, office staff, students, all who work and enter the school. Your child will see and learn morality, caring, humility, responsibility and respect for self and others in a safe, secure environment showing God's teaching in action. They will view role models of Christian men and women and how they live their faith.*

*The teaching staff goes out of their way to get to know your child's individual needs. They quickly determine if your child needs assistance in any specific skill set, such as phonics, reading or mathematics. The result is your child's improvement in the subject area. As they learn your child's needs and behaviors, they understand how to challenge your child to grow educationally, emotionally, as well as spiritually.*

*These are just some of the reasons my wife and I made the sacrifice to send our children to Holy Trinity (now Corpus Christi). The teachers take time to get to know all the children and take personal responsibility for their success. Our children's faith was strengthened by the spiritual environment provided at Holy Trinity School (now Corpus Christi). The school helped to develop our children into the young men and women that God wants them to be.*

*God Bless,*

*Shawn and Stacy Kennedy*
